

TENNESSEE RATIFIES WOMAN SUFFRAGE

But Opponents Have Chance To Reconsider Vote Thro Coup of Anti Leader

(By Associated Press)
Nashville, Tenn., Aug. 18.—Tennessee today became the 36th state to ratify the federal woman suffrage amendment, the constitutional change thus becoming effective in time for 17,000,000 women of the country, to vote in the Presidential election in November unless the Lower House of the Tennessee assembly rescinds its action today in adopting the ratification resolution by 49 to 47.

Speaker Walker, leader of the anti-suffragists, however, put its opponents in a position to demand a reconsideration by changing his vote from nay to aye and moving to reconsider.

The House then adjourned when Walker's motion will have the right of way. The Senate ratified the amendment Friday.

JOINT OPERATORS MAY BE DISRUPTED

(By Associated Press)
Cleveland, Ohio, August 18.—A division of bituminous coal operators of the central competitive district, comprising Ohio, Indiana, Illinois and western Pennsylvania, with separate bargaining for miners of each state, is probable, it was learned after today's meeting. Two subcommittees were appointed by a joint scale committee, which reported a disagreement to the joint committee in the existing deadlock on the miners' request for an adjustment of alleged inequalities in the recent award of President Wilson's coal commission.

"Great differences exist among operators of the four states," said Secretary-Treasurer Green, of the United Mine Workers, "which may result in a disruption of the joint wage movement in force in the central competitive field."

UNCLE SAM LOOKING INTO COAL SITUATION

Washington, August 18.—Active steps to limit the prices charged consumers for coal in various parts of the country will be begun shortly by the Department of Justice, it was said last night by officials of the department.

Reports from the Federal Trade Commission covering the costs of production and distribution of coal are being studied by experts of the department, it was stated, and data being compiled upon which to base instructions to district attorneys governing the prosecution of exorbitant price coal case. No attempt will be made to fix a price on coal, it was said, as the attorney general can act only on the Lever act, but it was pointed out that by prosecution for violations of the law the price of coal can be kept within reasonable bounds.

REWEDES AFTER 8-YEAR HUNT FOR LOST MATE

Winchester, Ky., Aug. 18.—The marriage of Mrs. J. C. Richardson formerly of Kentucky, to J. W. Walker, of Jacksonville, Fla., recalls the strange disappearance of her former husband, J. Clarence Richardson, who vanished eight ago from their home in Mt. Sterling, Ky.

It was reported that a man answering his description had been killed in Indiana, but when the body was exhumed the report proved untrue. During the succeeding years Mrs. Richardson gradually abandoned hope that her husband was still alive.

The marriage of Mr. Walker who is connected with the Seaboard Airline Railroad Company, is the culmination of a romance begun three years ago. The bride is a sister of Mr. T. C. Henry, of this city. She has one child, 12 years old.

MADISON BURLEY GROWERS ACTIVE

Delegation Off For Lexington To Attend Big Meeting—Another Here Saturday

What is known as the Burley Tobacco Growers' Association, comprising producers of Kentucky, Indiana, Ohio and West Virginia, is expected to be the outcome of the big meeting at Lexington Wednesday when representatives of a large part of the territory will be present, having been called for the purpose of looking after the future interests of tobacco.

Constitution and by-laws will be drafted and this will form a basis upon which the several thousand members are expected to operate in the future. Just what decision, if any, regarding the crop for 1921 will be taken at the meeting is not known at this time, for this will be one of the important features of the meeting. It is known some favor the idea and others another. Kentucky is said to be the center of the tobacco raising territory, and great interest is being manifested in the operators here. Madison county is one of the most extensive producers and will have a number of delegates at the meeting. That the cut-out for 1921 is objected to, and will be voted against, there is no question. This decision was rendered by vote at the first meeting held here last Saturday. There is a temporary organization at Lexington. There will be a meeting of the Madison growers in Richmond at the court house on next Saturday afternoon at 1:30 o'clock, and it is expected a detailed report of the Lexington meeting, together with the plans, will be made to the growers here. Then, it is believed, action will be taken looking towards the perfection of an organization, which is favored by many. It is said that more than 50,000 growers are eligible to membership in the big organization, but many are of the opinion that while Madison county will doubtless affiliate with the other counties, as well as the organization, there will be independent action taken here for the benefit of the growers.

Besides Green Clay, Dr. G. G. Perry, Waller Bennett and N. B. Deatherage, appointed delegates, a number of other Madison county growers are in attendance.

Says Many Delinquents Were Caught Here But No Evidence of Dishonesty Here

D. Tevis Huguely, in charge of the Middlesboro internal revenue division, was in Richmond Wednesday, having just concluded working in the big special excise and miscellaneous tax drive which was put on by revenue men all over the state during the past 60 days. Richmond business men who forgot to pay Uncle Sam's license tax had a visit from Mr. Huguely at the beginning of the drive and had to "cough up." Mr. Huguely said he found no evidence of dishonesty on the part of any Richmond business man. In many places the evidence showed wholesale stealing. Mr. Huguely said that in Richmond the mistakes were principally clerical or errors in calculation.

Kentucky outranked the entire United States in the campaign against tax evaders ordered by the government three months ago. According to figures in the hands of federal tax collectors, Kentucky shows \$51,257.63, embracing 2,260 tax evaders. These are the lowest figures in the country for a state district.

The only district which gave a lower total than Kentucky was an eastern district and did not embrace an entire state as does Kentucky.

Washington authorities praised Collector Elwood Hamilton highly.

Three months ago the department at Washington sent out instructions to each of the 64 districts in the United States, announcing the drive and at the same time placed 171 special tax men, who visited all of the large cities in the work. It was expected that the loss to the government would approximate \$1,000,000. The total figures of the country have not been given out at Washington. According to Mr. Hamilton the books of every merchant in Kentucky were audited by the special tax men.
